

A YEAR ON THE COAST

A photographic presentation

by Justin Minns

Justin Minns is a professional photographer specialising in capturing the atmosphere of the East Anglian landscape for clients which include the National Trust.

“There’s a thrill in watching the first pastel colours of the day appear over the frozen stillness of a Broads landscape on a winters morning or standing on a wild and windy beach as the sun’s first rays skim over the dunes and capturing these moments is what my photography is all about.”
