Often our images lack the atmosphere or mood or emotion we felt as we took

the shot. The camera can't record how we feel, so most images need some element of interpretation to make them 'expressive'. Colin will show us various techniques to transform a rather ordinary image into something that's far more satisfying.

This talk takes place online using the Zoom app. The login code will be emailed to members. Visitors are welcome and entry is free (voluntary donations are welcome). Please request the Zoom code by visiting www.hdcc.org.uk/syllabus
